PUBLIC NOTICE

FRIDAY

March 05, 2021 – 12:00 – 1:30 PM

Members of The Sustainability Board, in their efforts to assist the City Council, City Manager, and city staff in matters relating to pollution reduction, water quality initiatives, community education and involvement, and assessing local climate risk, may be virtually attending “USGBC Florida Presents: Leadership in Florida’s Cities and Local Government”.

This thought leadership panel will showcase how several cities are creating responsible, sustainable and specific plans for natural systems, energy, water, waste, transportation and many other factors that contribute to quality of life. This session brings sustainability to scale from LEED buildings to LEED for Cities!

The virtual workshop will be hosted by U.S. Green Building Council (USGBC) Florida.
