2. Proclamation: Irish American Heritage Month – March 2024.

3. Proclamation: Procurement Month – March 2024.

PRESENTATIONS:

1. Jack Freeman, Project Manager, Kittleson and Associates – Update on Malabar Road Widening Product Development and Engineering (PD&E) Study.

Mr. Travis Hill, of Kittleson and Associates, provided an update on the PD&E Study. He explained that the study was a Local Agency Program Project, used Federal funds and was administered by the City. Mr. Hill stated the purpose of the study, and that the intent was to evaluate the need for capacity improvements (roadway widening), to add multi-modal features and to address safety issues along the corridor. The estimated project cost was \$154,724,400.

Mayor Medina expressed concern regarding the proposed roundabout at St. John's Heritage Parkway (Parkway) and Malabar Road. He said that the City was already investing in a mast traffic signal for that area. Mr. Hill responded that Brevard County owned Malabar Road west of the C-10 canal and their preference was to install roundabouts. Mr. Hill said that if the traffic signal design allowed for widening to four (4) lanes, then a roundabout may not be needed.

Mr. Foster felt that a roundabout being at the intersection of Bending Branch and Krassner Roads would be dangerous and would increase traffic issues in an area that already had a functioning traffic signal.

Mr. Johnson wanted to know what funding options were available so that the construction could begin as soon as possible. Ms. Sherman responded that Federal funds would be needed to finance the project and that staff would be applying for any related grants.

2. Jack Freeman, Kittleson and Associates – Safe Streets for All (SS4A) grant application for Emerson Drive Safety Improvements.

Mr. Travis Hill, of Kittleson and Associates, provided an update regarding the grant application. He said the Crash Data Overview provided the observations, recommendations and next steps moving forward with the implementation for the project. Mr. Hill explained why Emerson Drive had been chosen for safety improvements being that there had been multiple crashes and one fatality at Malabar Road and Emerson Drive. He said that the Space Coast Transportation Planning Organization (Space Coast TPO) Vision Zero Action Plan had been adopted by the board in February 2024 and provided metrics for the same.

Mayor Medina questioned the dual turn lane at Culver and Emerson Drives and felt it should be eliminated and not just extended. Mr. Hill explained that an extension would be a capacity related improvement, not safety, and therefore would not be considered under the grant.

Mr. Foster asked if most accidents occurred during daylight or nighttime hours. Mr. Hill confirmed that over thirty percent (30%) of the injury crashes were at night. Mr. Foster felt that better lighting would be helpful, along with reflective road striping.

Mr. Johnson was in support of the project and wanted more information regarding crime in unlit areas in the City. Chief Augello confirmed that there was more crime in areas that were not well lit.

Deputy Mayor Felix felt that the entire City needed more lighting. Mr. Hill explained that would require an additional Safety Grant and more time to gather information that could prove that there was a crash history problem at night.

Mayor Medina asked what direction was needed for staff. Ms. Sherman said that there were two (2) rounds of additional streetlights that had already been approved by Council and that Florida Power and Light (FPL) had received all the equipment and would be starting the installations of lighting in the upcoming weeks. Staff was already looking at other areas for streetlight installation, as well as utilizing solar streetlights.

Item 1, under Proclamations and Recognitions, was presented at this time.

1. Recognition: Presentation of the American Flag – honoring the service of Mary Thibert-Greene and Kenneth Greene (Councilman Foster).

The American Flag was presented to Mrs. Thibert-Greene and the late Councilman Kenneth Greene. Mayor Medina wanted to honor Councilman Greene by naming a park after him. Council concurred. Staff would present the request to the Recreation Advisory Board.

Council resumed the consideration of items in order as shown on the agenda.

PUBLIC COMMENT(S)/RESPONSE(S): (Non-agenda Items Only)

Individuals made general comments.

1. Bill Battin, resident, stated that Gaynor Drive needed maintenance as the speed limit signs were not visible due to the overgrowth. Ms. Sherman stated that the Public Works

Department would handle same. She noted that she would get an update on the road striping on Gaynor Drive as was discussed at a previous meeting.

2. Thomas Reese, resident, asked for an update regarding Pineapple Cove Classical Academy (PCCA) and the related traffic problems.

Ms. Sherman advised that City staff had met with PCCA's administrative staff, and they were making significant changes to help improve the situation. She said that PCCA was planning another meeting with the community, school administration and City staff.

3. Lisa Jackson, resident, expressed concern with the loss of habitat and trees with so much new construction.

Mr. Johnson agreed and asked for staff's input. Ms. Frazier confirmed that if a lot was one (1) acre or less, no permit was needed to clear the lot. She said that staff would be reviewing the Land Development Code with a consultant soon, modify the Code if needed, and present different options for Councils consideration.

Council concurred to consider Items 2 and 3, under New Business, at this time.

He said that these organizations were generally tax exempt and felt that the City should focus on infrastructure and not help to pay for parties. Ms. Sherman advised that co-sponsorship events were \$12,000 per event for in-kind services and a total of \$50,000 was budgeted per year.

Mayor Medina supported the request and its value to the community.

The Planning and Zoning Board recommended approval of the request.

The City Attorney read the resolution in caption only. The public hearing was opened. Carmine Ferraro, Crossover Commercial Group and representative for the applicant, presented the request to Council.

Bill Battin, resident, was concerned that the lanes did not align with the intersection and thought it would cause more traffic issues in the area. Mr. Ferraro responded that the roads had been modified to properly align with the intersection and a traffic signal would also be erected.

The City Attorney read the ordinance in caption only. The public hearing was opened. The applicant presented the request to Council.

Bill Battin, resident, commented on how these incorrect surveys at the start of the process were causing elevation and drainage problems at the end of construction.

Ms. Sherman explained that the problems for this site started with the builder's engineering survey company mislabeling the westerly twenty (20) foot public utility and drainage easement as being only a six (6) foot easement on the lot drainage and site plans. Ms. Sherman stated that the house was over eighty percent (80%) complete before in-house staff realized the oversight.

The public hearing was closed.

Ms. Smith advised that the applicant had revised the Final Development Plan, and the Growth Management Director determined that it qualified for administrative review as the revisions changed less than twenty percent (20%) of the plan. The Growth Management Director administratively approved the revised plan, which did not change the number of units that were previously approved in the Final Development Plan, thereby rendering the Final Order moot.

Individuals expressed concern that the developer may attempt to come back and make future changes to their plans. Ms. Smith explained that the request had been denied by City Council and that vote would not change. The builder decided to proceed with the original plan of 92 units, which was approved back in 2006, instead of 126 units. The modification to the Final Development Plan to revert back to the 92 units only required administrative review by staff.

The public hearing was closed.

Mayor Medina asked for consensus to have staff send a letter to the Secretary of Florida Department of Transportation (FDOT) and or Federal Department of Law Enforcement (FDLE) regarding the Malabar Road interchange corridor to promote public safety. Council concurred.

Motion by Mr. Johnson, seconded by Mr. Foster, to authorize a budget amendment to allocate funding to serve as a match for Community Funding requests as recommended by City Staff and to send letters regarding public safety to FDOT and FDLE for the Malabar Road corridor. Motion carried with members voting as follows: Mayor Medina, Yea; Deputy Mayor Felix, Yea; Councilman Johnson, Yea; Councilman Foster, Yea.

11. Consideration of designating certain City-owned real estate generally located along Water Drive NE (Parcel ID: 28-37-24-27-3-4.01, Tax Account: 2832805) as surplus and listing for sale to the public.

Staff Recommendation: Approve designating certain City-owned real estate generally located along Water Drive NE (Parcel ID: 28-37-24-27-3-4.01, Tax Account: 2832805) as surplus, and listing with the City's real estate broker.

Bill Battin, resident, asked if the \$461,000 received from the sale of the property would go into the Road Maintenance Fund and the taxable value that could be generated. He expressed concern with the location of the property and the effect on the possible future widening of U.S. Highway 1. He asked if the City would have to purchase the land back to accommodate a widening project.

Ms. Sherman confirmed that the sale proceeds would be placed into the Road Maintenance Fund, but she could not advise on the generated taxable value as the type of development on the property was unknown. She said if the State decided to widen U.S. Highway 1, they would have to work with property owners.

Deputy Mayor Felix was not comfortable with this property being surplus as it was close to a major highway and the City may find use for it in the future. He did not support the request.

Motion by Mr. Johnson, seconded by Mr. Foster, to approve designating the property as surplus and listing with the City's real estate broker.

Motion carried with members voting as follows:

Mayor Medina	Yea
Deputy Mayor Felix	Nay
Councilman Johnson	Yea

Bill Battin, resident, questioned how much profit would be made by the builder for creating the development from donated property. He also asked why the City would donate the land instead of selling it like the previous item. Mr. Battin felt that the proceeds could contribute to infrastructure.

Ms. Sherman confirmed that the two (2) lots were planned for affordable housing. Ms. Bunt explained that the homes would be built immediately for affordable housing and there would be a twenty (20) year lien on the property to keep it as such. The estimated impact fees from the development were projected between \$12,000 and \$14,000.

Motion by Mr. Foster, seconded by Deputy Mayor Felix, to approve designating the properties as surplus and donating said lots for affordable housing development.

Deputy Mayor Felix asked about the previous tenant, Little Growers, and if they had the opportunity to purchase the land. He asked if staff had contacted them with this information. Ms. Sherman said that Little Growers had offered \$5,000 to purchase the land a few years prior but, at the time, the City was looking into stormwater needs for the community and the property was not for sale. Ms. Bunt added that pursuant to the agreement with Little Growers, they were sent a certified letter as notice.

13. Consideration of reallocating approved Fiscal Year 2023-2024 funding from vac and chaser trucks to procure a slope mower, trencher, and F-150 pick-up truck; and request for additional funding for previously approved trencher, loader, and one full-time Maintenance Worker within the Public Works Department.

Staff Recommendation: Approve utilizing previously approved Fiscal Year 2023-2024 funding from one (1) Vac Truck and one (1) Chaser Truck to procure one (1) Slope Mower, one (1) Trencher, and one (1) F-150 4WD Super Cab Pickup Truck including accessories; and provide additional funding for one (1) previously approved Trencher and one (1) Loader. In addition, appropriate funding from Stormwater Fund Undesignated Balance for one (1) additional Full-Time Maintenance Worker within the Public Works Department.

Bill Battin, resident, asked why the Vac Truck and Chaser Truck were originally requested if they were no longer needed. He was in favor of the new Trencher as he could see the need for it.

Ms. Sherman said that both trucks were needed and wanted, but it was a budgetary mistake in which same items were budgeted twice.

Motion by Mr. Johnson, seconded by Deputy Mayor Felix, to reallocate and approve additional funding, and procure the equipment as recommended by staff. Motion carried with members voting as follows: Mayor Medina, Yea; Deputy Mayor Felix, Yea; Councilman Johnson, Yea; Councilman Foster, Yea.

PROCUREMENTS:

1. Award of Proposal: Prequalification for septic to sewer services (rebid) – RFP 07-0-2024 – Utilities Department (Drain Mechanics, LLC; Prime Construction Group, Inc.; Centerline Utilities, Inc.; and Total Plumbing, Inc.).

Staff Recommendation: Approve the award for prequalification for septic to sewer services (rebid), thereby creating a pool of vendors for septic-to-sewer conversion projects, with Drain Mechanics, LLC (Palm Bay); Prime Construction Group, Inc. (Orlando); Centerline Utilities, Inc. (Palm City); and Total Plumbing, Inc. (Melbourne).

Bill Battin, resident, made numerous comments regarding mandatory connection and the septic-to-sewer conversion. He felt there was still preferential treatment as some residents would receive assistance and others would not. He questioned the City's solution to alleviate the infrastructure problems. Mr. Battin suggested using the funds to lower everyone's connection fees instead of taking a large sum of money to help a few hundred residents.

Ms. Sherman said that staff was working with the State for assistance with funding septic-to-sewer conversions that could help alleviate the costs for all residents that were affected.

Randall Olszewski, resident, felt that Drain Mechanics, LLC should be the only company participating in the conversion process since they were centrally located within the city.

Ms. Sherman explained that there was a need for more than one (1) vendor because of the volume of connections that needed to be done in a timely manner. She said the item was rebid because there was only one (1) vendor initially. Mr. Barber provided further details on reasons for the rebid process.

Motion by Deputy Mayor Felix, seconded by Mr. Foster, to approve the award as recommended by staff. Motion carried with members voting as follows: Mayor Medina, Yea; Deputy Mayor Felix, Yea; Councilman Johnson, Yea; Councilman Foster, Yea.
