CHAPTER 176. STREETS, PARKING, AND LOADING

PART 1. CHAPTER 179: STREETS AND OTHER RIGHTS-OF-WAYSIDEWALKS

GENERAL PROVISIONS

§ 176.001. PURPOSE

The purpose of this part of Chapter is to provide standards for the provision of roadways and access to the properties within the City.

§ 176.002. § 179.002 APPLICABILITY.

No street shall be closed or vacated, created, or improved without receiving approval by City Council in compliance with the provisions of this chapter.

('74 Code, § 20-2) (Ord. 83-23, passed 4-7-83; Am. Ord. 2007-94, passed 10-18-07; Am. Ord. 2016- 30, passed 5-19-16) Penalty, see § 179.999

§ 176.003. REQUIRED STREET IMPROVEMENTS STREET DESIGN

New streets shall be aligned to establish connectivity between land uses and with the existing road network. All streets shall be designed with pedestrian and bicycle facilities as required in this chapter, and according to the City's Comprehensive Plan and FDOT's context classification and the Florida Greenbook. See Chapter 177 for street design within subdivisions. FROM 184.18

(A) Design standards.

(1) Right-of-way and travel lane width. Streets shall be designed as follows:

| STREET TYPE | MINIMUM ROW WIDTH | MIN. TRAVEL LANE WIDTH/ PAVEMENT |
|---|----------------------|----------------------------------|
| <u>Arterials*</u> | <u>160 ft.</u> | <u>12 ft.</u> |
| Collectors | <u>100 ft.</u> | <u>12 ft.</u> |
| Local Streets, with a closed drainage system* | <u>50 ft.</u> | <u>11 ft.</u> |
| Local Streets with an open drainage system* | <u>60 ft.</u> | <u>11 ft.</u> |

^{*} For commercial, industrial, and other types, the standards will be as determined by the City Manager or designee.

- (2) Street jogs. Street jogs with center line offsets of less than one hundred twenty-five (125) feet shall be avoided.
- (3) Sight distance for curves. A minimum sight distance will meet current FDOT standards.
- (4) Street intersections.

(a) Street intersections shall be laid out so as to intersect as nearly as possible at right angles, and no street shall intersect any other street at less than sixty (60) degrees.

- (b) Property lines at street intersections shall be rounded with a radius of twenty-five (25) feet, or with a greater radius where the City Engineer may deem it necessary. The City Engineer may permit comparable cutoffs or chords in place of rounded corners.
- (5) Half streets. Half streets shall be prohibited. If a half street is in existence and adjacent to a tract to be subdivided, the other half of the street shall be platted within such tract.
- (6) Culs-de-sac. Culs- de-sac will be required if determined necessary by the City Council to ensure adequate turnaround space for vehicles. Streets that end in a cul-de-sac, shall not be longer than one thousand (1000) feet and shall be provided at the closed end with a turnaround having an outside roadway diameter of at least eighty (80) feet, and a street property line diameter of at least one hundred (100) feet.
- (7) Street grades. No street grade shall be less than 0.3 percent.
- (8) *Drainage grades*. No drainage grade, including swales, and curbs and gutters, shall be less than 0.2percent. Swales shall be a minimum of 0.1percent.
- (9) Alleys. The minimum width of any alley right- of-way shall be twenty (20) feet; the maximum width shall be 30 feet. Alley intersections and sharp changes in alignment shall be avoided, but where necessary, corners shall be cut off sufficiently to permit safe vehicular movement. Dead-end alleys shall be avoided, but if unavoidable, shall be provided with adequate turnaround facilities at the dead end, as determined by the City Engineer.

§ 176.004. RIGHT-OF-WAY AND EASEMENT USE

§ 179.090 SHORT TITLE.

This subchapter shall be known and may be cited as the "Right- of-Way and Easement Use Ordinance." ('74 Code, § 20-91) (Ord. 93-03, passed 2-18-93)

(A) § 179.092 Exemptions.

- (1) (A)—It is not intended by this subchapter to repeal, abrogate, annul or in any way impede or interfere with existing provisions of other agreements, and contracts, i.e., or franchises. Where this subchapter imposes greater restrictions than is are imposed or required by such existing provisions of the agreements and contracts, by ordinance, the provisions existing on the date they were entered into shall prevail.
- (2) (B)—Any person with an active <u>agreement, contract, or</u> franchise in full force shall be exempt from the right-of-way use permit fees.

('74 Code, § 20-93) (Ord. 93-03, passed 2-18-93)

- § 179.093-Prohibited uses within rights-of-way and easements.
- (B) In order to protect the health, safety and welfare of the citizens of the city, the city expressly reiterates and reinforces its authority to control and limit the use of the public rights-of-way and easements.
 - (1) (A)—Rights-of-Way. Prohibited uses on any right-of-way within the city include, but are not limited to the following: mailboxes other than prescribed by the U.S. Postal Service and the FDOT Roadway and Traffic Design Standards; decorative walls, retaining walls; barriers or obstructions of any kind;

construction materials (except for those construction materials intended for permitted use within the right-of-way and that are stored for a period of time not to exceed the duration of the permit); soils and/or debris of any kind; trees and shrubs (except as defined and outlined in the FDOT Highway Beautification and Landscape Management Rule, Chapter 14-40, F.A.C.); wells; recreational devices of any kind; sanitary facilities; benches; planters; unauthorized bus shelters; decorative statues; privately owned irrigation systems or irrigation systems not installed by a government entity, unless specifically approved by the Public Works Department; construct or maintain any temporary structure, tent, or other objects intended to be used for camping, without permission or authorization of the owner of such public area; governmental or off-premises directional/guidance signs not permitted by law; any improvements for personal or private use, except in the case of approved private security lights, supplied and installed by a franchised electrical power company; the servicing or repairing of any vehicle except the rendering of emergency service and the storage of vehicles being serviced or repaired and the display of unauthorized advertising; except that any portion of a right-of-way may be used for an art festival, parade, fair or other lawful events if permitted by the city code of ordinances.

(2) (B)—Easements. It is declared to be unlawful to install, place, locate or construct for personal or private use any improvement not intended for public use. Any improvement requiring a permanent foundation or which can not cannot be readily removed shall also be declared unlawful.

('74 Code, § 20-94) (Ord. 93-03, passed 2-18-93; Am. Ord. 2000-68, passed 12-21-00; Am. Ord. 2001-37, passed 6-21-01; Am. Ord. 2002-01, passed 1-17-02)

- § 179.094 Permit when required; not required.
- (A) Required. A permit shall be obtained from the Public Works Department prior to installing, placing, constructing, or replacing as described in this subchapter, any improvement within any right-of-way or easement, including but not limited to the following: all jack and bores regardless of bore method used; all poles, regardless of design use; all aboveground improvements that create an obstruction. All security lights and street lights streetlights shall require a permit but shall be exempt from the right-of-way and easement use permit fee.
- (C) (B) Not required. A permit shall not be required for the following:
 - (1) Driveways. Refer to §§ 179.075 et seq.
 - (1) (2)—Franchisee. Only when the proposed improvement within the city right-of-way or easement meets all the following conditions:
 - (a) (a)—Will not disturb any paved areas.
 - (b) (b)—Will not disturb any other improvements in the area.
 - (c) (c)—Will not disturb vehicular or pedestrian traffic to any degree.
 - (d) (d)—Will not disturb an area larger than one hundred (100) square feet in any shape.
 - (e) (e)—Will not exceed a depth below grade of forty-eight (48) inches, except utility poles.
 - (f) Will be restored to a condition as good as or better than existed before the effort. The disturbed soil will be stabilized with like sod in front of developed areas or seed and mulch in front of undeveloped areas.

- (g) (g)—Underground service connection, when the trench width is twelve (12) inches or less.
- (h) (h)—Is not a jack-'n'-bore of any kind, regardless of intended method to be used.
- (2) (3)—Work. When the effort of the proposed work will be confined within utility easements and not within rights-of-way and easements as defined in Chapter 171 171 179.091.

('74 Code, § 20-95) (Ord. 93-03, passed 2-18-93) Penalty, see § 179.999

- § 179.095 Liability.
- (D) This subchapter shall not be construed to create liability or hold the city responsible or liable for any damage to persons or property by reason of any inspection or reinspection. Neither the issuance of a permit nor the approval or disapproval of any installation authorized herein shall constitute any representation, guarantee, or warranty by the city of any kind: nor shall the issuance of a permit or approval or inspection of any improvement create liability upon the city or any official, agent, representative or employee thereof. Additionally, the permittee shall be required to maintain improvements regardless of who installed, constructed, replaced, maintained, or altered such improvements until such time as the improvement may be accepted by a governmental agency. By applying for a permit, the permittees acknowledge that they, and their subcontractors will hold the city harmless from any liability arising from failing to install, construct, replace, maintain, or alter or from improperly installing, constructing, replacing, maintaining or altering the improvement until such time as the city may accept full maintenance responsibility for the improvement.

('74 Code, § 20-96) (Ord. 93-03, passed 2-18-93) Penalty, see § 179.999

§ 176.005. § 179.080 RESTORATION OF DAMAGED AREAS.

Any person(s), firm, business entity, or corporation that damages property located on, under, across or along a right-of-way or easement or any city road or other city improvement shall be required to either restore the damaged property to its condition prior to the damage or shall pay to the city the sum of money determined by the Public Works Department to be necessary to restore the damaged area to its condition prior to the damage. Any such restoration shall meet all construction and engineering standards of the city. Additionally, any permittee who has previously failed to restore the damage(s) as required by this subchapter shall not be issued further permits from the city until such damage is either restored and accepted by the Public Works Department, or the entire cost of restoration incurred by the city to make such restorations has been paid in full by the applicant. In the event discrepancies arise as to the responsibility for damage, the burden of proof shall be on the person or permittee to establish that the person or permittee is not responsible.

(Ord. 2000-70, passed 12-21-00)

§ 176.006. STREET NAMES.

No street names shall be used which will duplicate or be confused with the names of existing streets. Street names shall be subject to the approval of the Land Development Division and submitted to the County E-911 office.

§ 176.007. § 185.120 VISION CLEARANCE AT CORNERS, CURB CUTS AND RAILROAD CROSSINGS.

Notwithstanding any part of this chapter or any permit granted, or any variance granted under the provisions of § 169.009, nNo type of structure, vehicle, tree, planting, vegetation, sign, or fence or any type of obstacle or

any portion thereof shall be placed or retained in such manner which would create a traffic hazard or would obstruct the vision clearance at corners, curb cuts, or railroad crossings in any zone.

('74 Code, § 25 216) (Ord. 89 08, passed 4 27 89; Am. Ord. 2010 76, passed 11 4 10)

(C) Intersection visibility. Where an aisle, driveway, sidewalk, bike path or other access way intersects a public right of way, landscaping shall be used to define the intersection, provided, however, all landscaping within the triangular areas described below shall provide uUnobstructed cross-visibility shall be maintained at a level between two (2) and six (6) feet. Trees having limbs and foliage trimmed in such a manner that no limbs or foliage extend into cross-visibility shall be allowed, provided they are so located so as not to create a traffic hazard. Landscaping, except grass and ground cover, shall not be located closer than three (3) feet from the edge of any access way pavement. within the The triangular areas are described as follows: THIS SECTION WAS MOVED HERE FROM 185.142 OFF-STREET PARKING AREA LANDSCAPING REQUIREMENTS

- (A) (1) The areas of property on both sides of an aisle, driveway or other access way formed by the intersection of each side of the aisle, driveway or access way and the public right-of-way pavement line with two (2) sides of each triangle being ten (10) feet in length from the point of intersection and the third side being in line connecting the ends of the two (2) other sides.
- (B) (2) The area of property located at a corner formed by the intersection of two (2) or more public streets with two (2) sides of the triangular area being measured thirty (30) feet in length along the right-of-way line (or in the case of an arc, the extensions of the right-of-way lines) from their point of intersection, and the third being a line connecting the ends of the other two (2) lines.

§ 176.008. § 185.127 CULVERTS AND CURBING.

- (A) (A)—Within all districts, <u>required</u> culverts when required shall be constructed to city specifications and approved prior to the issuance of a certificate of occupancy.
- (B) (B) Except for single-family and duplex two-family lots, curbing will be required on all curb breaks or driveways. Curbing shall be placed from the property line to the edge of the street pavement and shall conform to the city's "Standard Detail for Curbing" and all specifications contained therein.

('74 Code, § 25-223) (Ord. 89-08, passed 4-27-89)

§ 176.009. § 185.130 ACCESS TO COMMERCIAL AND INDUSTRIAL LAND.

(A)—No public or private street, road, easement or driveway within a residential area or on which residentially zoned land abuts shall be used as vehicular access or as a through road to any commercially or industrially zoned land, uses or businesses and no lot shall be created, building permit issued nor curb cut or driveway permitted or approved that will allow or create access to any commercially or industrially zoned land or uses through a residential area except:

- (A) (1)—Access onto collector arterial roads.
- (B) (2)—Access to corner lots at intersections of any street with a collector or arterial road.
- (C) (3)—For emergency ingress or egress where access is physically controlled and used only for emergency evacuation or access.

(D) (4)—Access to existing commercially or industrially zoned land or uses in existence at the time of adoption of this section that have no alternative means of ingress or egress to an existing public or private street.

§ 176,010, § 179,030 TRAFFIC-CONTROL DEVICES.

Following written approval from the City Engineer to commence construction or improvement of any public or private street, and prior to acceptance of any street by the city or the opening of any street to automobile traffic, any person or firm improving or constructing the street(s) shall furnish and install all signing signs and pavement markings in accordance with the Florida Department of Transportation manual entitled, Uniform Traffic Control Devices for Streets and Highways. The location and placement of signing signs and pavement markings shall be approved by the Police Department. Such signing signs and pavement markings shall be maintained in good repair by the installer, unless or until the streets are accepted for maintenance by the city.

('74 Code, § 20-30) (Ord. 83-23, passed 4-7-83) Penalty, see § 179.999

§ 176.011. § 179.032 SIDEWALKS AND BIKEWAYS.

- (A) (A)—Sidewalks and bikeways shall be required on both sides of all (public and private) streets. Sidewalks and bikeways shall: where such sidewalks or bikeways would:
 - (1) (1)—Provide for the continuation of existing or proposed sidewalks and bikeways;
 - (2) (2) Provide for primary or secondary access to existing or proposed school site locations educational facilities; or
 - (3) Provide connections to the nearest local road, transit stops, area destinations, employment centers, and parks; and
 - (4) (3)—Conform to an adopted sidewalk or bikeway master plan.
- (B) Sidewalks or walkways shall be provided within residential and non-residential sites to connect the public sidewalk to all principal buildings, site amenities, and parking areas within the site.
- (C) (B)—Sidewalks shall be constructed of concrete, four a minimum of five (45) feet in width, and four (4) inches thick (six (6) inches thick with in driveways), and shall be constructed on both sides of all streets that meet the criteria in division (A) above. For developments consisting of one (1) acre lots in size or greater
- (D) For developments proposed along a 10-foot-wide multiuse trail, sidewalks may be provided on only one (1) side of the street and shall be constructed with a raised curb separating the sidewalk from on-street parking. [FROM 185.058 BMU]
- (E) (C)—Bikeway construction, design and signing shall meet the requirements of the current Florida Department of Transportation Bicycle/Pedestrian Design Standards, unless otherwise approved by City Engineer.
 - (1) For new roadways, bikeways shall be designed to be separated from travel lanes (e.g., cycle tracks, protected bike lanes, etc.).
 - (2) Unprotected bike lanes shall be of a distinct color or material different than the travel lane.

(3) Sharrows may be utilized on two-lane low speed local roads as determined by the City Manager or designee. Sharrow pavement markings shall be placed on the street indicating that drivers and cyclists share the travel lane.

('74 Code, § 20-32) (Ord. 83-23, passed 4-7-83; Am. Ord. 2016-30, passed 5-19-16) Penalty, see § 179.999.

PART 2. DRIVEWAY PERMITS DRIVEWAYS

§ 176.020. § 179.076 WHEN REQUIRED PERMIT REQUIRED.

No person, firm, corporation, or governmental agency shall construct, remove, alter, reconstruct, access the right-of-way temporarily or permanently, repair, or relocate any curb, culvert, sidewalk, driveway, gutter, pavement, or other improvement in any city road or easement without obtaining a driveway permit from the Public Works Department. When a driveway or other existing improvement has relocated, changed, or abandoned, making any portion or the entireall of the driveway or other improvement unnecessary, the owner of the abutting property shall obtain a permit and shall remove the driveway or other improvement and shall, at his own expense, install or replace all necessary curbs, gutters, culverts, and sidewalks.

(½74 Code, §20-76) (Ord. 85-11, passed 3-21-85; Am. Ord. 2000-70, passed 12-21-00) Penalty, see § 179.999

(A) § 179.077 Permit procedure.

- (1) (A)—Application procedure. Application for a driveway permit shall be made to the Public Works

 DirectorCity Manager or designee on forms provided. Each applicant shall provide the information and drawings specified on the permit application for the particular type of improvement. Additionally, each applicant shall be required to agree to maintain the constructed improvements and to hold the Council harmless for any liability arising from failing to maintain or from improperly maintaining the improvement.
- (2) (B)—Issuance of permit. Upon receipt of the application and drawings, the Public Works Director City Manager or designee shall review the application and determine compliance with the location, drainage, construction, and traffic engineering requirements established by the Council and whether it is consistent with future development of the area and any plans for future expansion of the existing road. If the application meets the applicable requirements, the Public Works Director City Manager or

designee shall issue a permit to the applicant. The <u>Public Works DirectorCity Manager</u> or designee may impose such conditions on permits as he/she deems necessary to ensure that the above-_described requirements are met using good engineering practices and in conformance with the Driveway Permit Guidelines. By acceptance of the permit, the applicant agrees to abide by all terms and conditions contained in the permit, in this subchapter, and in any other applicable regulations of the city. Permits shall expire at the end of ninety (90) days unless extended.

(3) (C)—Construction procedure. Upon issuance of the permit to the applicant, the Public Public Works

Department will furnish the applicant the pipe and grade specifications. Swale locations referenced to
the property line shall be constructed as specified in the permit. Any deviations must be approved in
writing by the Public Works Director City Manager or designee. Based on the stormwater management
regulations set forth in Chapter 177 of §§ 174.050 et seq., the area fronting a proposed building site
extending from the edge of the pavement to the property line shall be addressed as provided for in the
Driveway Permit Guidelines.

(B) (D)—Fees.

- (1) (1) The fees for issuance of a driveway permit in compliance with the driveway code shall be as established by resolution pursuant to § 169.004.
- (2) (a)—Expirations in excess of ninety (90) days require a new application.
- (3) (2)—The fees as set forth in this section shall be increased by four percent (4%) (rounded to the nearest dollar) each fiscal year. Should any decrease in such fees be warranted in any given year, they shall also be decreased annually by that percentage that accurately reflects the reduction of permits requested and the specific and ascertainable resulting reduction in funds needed to pay the city costs to manage all services and time needed to issue and monitor the permits required by this section.
- (C) (E)—Bond. A performance bond, or other financial security approved by the City Attorney, may be required in the case where the specified work is incomplete and certificate of occupancy has been requested, or when damages to the right-of-way or any public property has been done and not repaired in accordance with good engineering practices or the Driveway Permit Guidelines, or when the work is nonconforming as determined by the Public Works Department. In addition to paying the fees established by the Council, a performance bond or other security approved by the City Attorney in the amount of one hundred dollars (\$100.00) nonrefundable processing fee, plus two thousand dollars (\$2,000.00) retainer refundable upon completion of specified work within thirty (30) days. If the work in question exceeds a value of two thousand dollars (\$2,000.00), the bond amount shall be increased by the difference plus ten percent (10%). If said work is incomplete after thirty (30) days, the bond will be forfeited. All such bonds or other security arrangements shall be on forms approved by the City Attorney. Such forms shall prescribe the manner in which noncompliance with the provisions of a permit, or this subchapter, shall be remedied, and shall provide the necessary financial assurances to remedy any non-compliance.

('74 Code, § 20-77) (Ord. 85-11, passed 3-21-85; Am. Res. 85-25, passed 3-21-85; Am. Ord. 2000-70, passed 12-21-00; Am. Ord. 2006-07, passed 2-2-06) Penalty, see § 179.999

§ 176.021. § 179.078 SPECIAL CONDITIONS FOR RESIDENTIAL IMPROVEMENTS DRIVEWAYS.

An owner of property who desires to construct a single-family residence accompanying driveway on his or her property may apply for a driveway permit simultaneously with the application for the residential building permit. If a driveway is necessary to provide access to the property, no certificate of occupancy can be obtained until the owner:

- (A) (A) Obtains a permit for the construction of the driveway pursuant to this subchapter and final approval thereof by the Public Works Department; and
- (B) (B) Agrees to complete construction of the driveway within ninety (90) days from the date the permit is issued. Failure to complete construction within such ninety (90) day period shall constitute noncompliance and void the permit.

('74 Code, §20-78) (Ord. 85-11, passed 3-21-85; Am. Ord. 2000-70, passed 12-21-00) Penalty, see § 179.999 § 176.022. (4)—NON-RESIDENTIAL DRIVEWAYS.

- (a)—Non-residential driveways shall meet the following minimum and maximum widths, measured at the right-of-way line-shall be a minimum width of fifteen (15) feet for one-way traffic and twenty-four (24) feet for two-way traffic.:
- (A) For larger commercial development that proposes multiple lanes of traffic, the following driveway width requirements shall apply:

| | Minimum | Maximum |
|-------------------------|---------|---------|
| One-way traffic lane | 15 feet | 24 feet |
| Two-way traffic lanes | 24 feet | 30 feet |
| Three-way traffic lanes | 36 feet | 48 feet |
| Four-way traffic lanes | 48 feet | 60 feet |

- (B) (b)—One (1) driveway per parcel shall be permitted for properties with up to one hundred and fifty (150) feet of street frontage. An additional driveway may be permitted for each additional one hundred and fifty (150) feet of street frontage.
- (C) (c) Driveways shall be at least fifty (50) feet apart measured from the closest driveway edge at the right-of-way line.
- (D) (d) Driveways along a minor side street shall not be located closer than one hundred twenty (120) feet to the nearest major street intersection.
- (E) (4)—Driveways having three (3) traffic lanes or more shall provide a raised median between entrance and exit lanes at the right-of-way line.
- (F) (e) In no case, however, shall a driveway or curb cut be permitted on the radii of any intersection.
- (G) All driveways that connect to a public road right-of-way shall be paved from the property line to the edge of pavement of the abutting roadway.

§ 176.023. § 179.079 DESIGN AND CONSTRUCTION REQUIREMENTS.

- (A) Compliance with law. All driveway improvements, as provided in this subchapterPart, shall comply with the applicable sections of the subdivision, zoning and building regulations of the city. Within all zoning districts, the improvements shall be constructed to city standards and specifications and approved prior to the issuance of a certificate of occupancy.
- (B) (B) Design standards. The Driveway Permit Guidelines and the specifications provided upon issuance of a permit will provide the technical specification providing for construction. Any deviations shall be approved in writing by the Public Works Director City Manager or designee. Approval shall not be unreasonably withheld providing such deviations conform to good engineering practices.

PART 3. TRANSIT FACILITIES

§ 176.030. TRANSIT FACILITIES

Developments generating 200 or more daily trips and located along a fixed bus route shall provide transit facilities sufficient to accommodate the ridership demand of the project. The type and location of the facilities shall be coordinated with the Space Coast Area Transit and City Staff. Transit facilities may include but are not limited to bus stops, shelters, bus turnouts, hubs/transfer stations, or improvements to the surrounding pedestrian network.

PART 4. OFF-STREET PARKING AND LOADING REQUIREMENTS

§ 185.140 OFF STREET PARKING AND TRAFFIC CIRCULATION.

In all districts, off street parking shall be provided as follows:

§ 176.040. (A) PURPOSE AND INTENT.

The purpose and intent of this section is to set forth parking requirements in proportion to the parking demand for each use in order to ensure functionally adequate, efficient, aesthetically pleasing, and secure off-street parking facilities, and to provide for on-street parking in certain circumstances. The regulations and design standards of this section are intended to ensure the usefulness of parking facilities, protect the public safety, and mitigate potential adverse land use impacts.

§ 176.041. (B) APPLICABILITY.

(1) <u>Development</u>. Every development, as defined in the City of Palm Bay Code, Title XVIIthis Land Development Code, established after the effective date of this section shall comply with the requirements of this Chapterset forth.

- (A) (1)—Any principal structure built or enlarged or increased in capacity by adding dwelling units, guest rooms, seats, or floor area after the effective date of this section shall provide off-street parking in accordance with the provisions of this section.
- (B) (2)—It shall be unlawful for an owner or operator of any structure or use affected by this chapter to discontinue or change the required parking areas, other than through a corresponding reduction in size of the structure or change in use, without meeting the requirements of this section.

§ 176.042. (3) EXEMPTIONS.

(A) (a)—Redevelopment. Building permits and certificates of occupancy may be issued for remodeling or structural alterations in existing developments without requiring compliance with this section provided such redevelopment does not result in an increase in the number of required parking spaces.

(B) (b)—Change of use. The number of parking spaces required by this section may be reduced when the use of a building is changed or reduced to a use or floor area for which fewer parking spaces are required. When the use is changed to a use for which more parking spaces are required, the number of spaces shall be increased to comply with the off-street parking schedule and design standards. Off-street parking requirements may be met with shared or remote satellite parking areas as described elsewhere in this Chapter § 185.140.

§ 176.043. (C) GENERAL REQUIREMENTS.

- (2) Residential districts.
- (A) (a)—Parking in driveways. Driveways may be used to satisfy the parking requirements for single-family dwellings, duplexes, and mobile homes provided that sufficient space is available exclusive of right-of-way or road easements.
- (B) (b)—Commercial vehicle parking or storage. No required parking space shall be used to park for a commercial vehicle for parking or storage or other uses which may interfere with normal off-street parking needs. See §74.25 of the Code of Ordinances for the definition of commercial vehicle and other restrictions. A commercial vehicle is any truck, bus, trailer, portable equipment, machinery or similar vehicle or combination thereof, used or intended to be used for any commercial enterprise or business purpose, or which has over six (6) wheels, more than two (2) axles, a height greater than eight (8) feet and has an overall length of more than twenty two (22) feet, excluding self propelled roadway vehicles less than six thousand (6,000) pounds net weight.
- (C) (c) Emergency vehicles. Parking shall not be permitted which blocks emergency vehicles on either public or private roads shall not be permitted.

§ 176.044. (D) DESIGN REQUIREMENTS.

- (A) (1)—All parking spaces, and access drives shall be improved in accordance with the design standards set forth in the current edition of the City of Palm Bay Public Works Manual and the Land Development Code.
- (B) (2)—Each parking space shall have a minimum width of ten (10) feet and a minimum length of nineteen (19) feet. If a parking space contains a wheel stop or abuts a curbed or landscaped island, an overhang may be permitted, and the length of the space thereby shortened to a minimum of sixteen (16) feet.
 - (1) (a)—Accessible spaces shall follow the current editions of the ADA, the FDOT Manual on Uniform Traffic Control Devices (MUTCD), the Florida Accessibility Code for Building Construction (FACBC), and F.S. Chapter 208553, F.S.
 - (2) (b)—Wheel stops may be used to prevent a vehicle from encroaching on adjacent sidewalks or property. The wheel stop shall be set back a distance that provides an unobstructed sidewalk width of four (4) feet to meet the Americans with Disabilities Act and the Florida Accessibility Code for Construction.
- (C) (3)—All off-street parking areas shall be designed to have adequate access to a public street or alley. The function and operation of the proposed parking type must be compatible with and appropriate for the type of parking proposed. Back-out parking or any other type parking utilizing the public right-of-way as an access aisle is prohibited except when applied to single-family and duplex land uses.

(D) Interior aisle widths shall conform to the minimum requirements below:

| | Aisle Width | |
|---------------|-------------|---------|
| Parking Angle | One-Way | Two-Way |
| 30° | 12 feet | 22 feet |
| 45° | 14 feet | 22 feet |
| 60° | 18 feet | 22 feet |
| 90° | 24 feet | 24 feet |
| Parallel | 12 feet | 22 feet |

- (E) All parking lots shall include pedestrian circulation along the perimeter of the parking area adjacent to the buildings and through the parking area from the sidewalk along the street providing access to the site and to the entrance of the primary building. Pedestrian pathways shall be a minimum of five (5) feet wide.
- (F) (5)—Where off-street parking is required, such required parking areas shall be used for vehicular parking only. No sales (unless a special event permit has been approved), —dead storage, repair work, dismantling or servicing of any kind shall be conducted, and the required areas in the various zoning districts shall be in addition to the loading and service spaces normally required for the business or office served.
- (G) (6)—Where off-street parking is required, such parking shall be provided on the same lot or premises with as the business or office which is being served. In the event the use of the lot or premises expands or changes and would require additional parking that cannot be accommodated on-site, the parking requirement may be satisfied off-site by following the provisions of §176.048 (SATELLITE PARKING) § 185.140(H).
- (H) (7)—Where artificial lighting is provided, it shall be designed and arranged so that no source of such lighting will be a visible nuisance to adjoining property used or zoned for a residential purpose. In addition, such lighting shall be designed and arranged to shield public streets and highways and all adjacent properties from direct glare or hazardous interference of any kind. All lighting shall meet the standards provided for in Chapter 177, Part 3§ 185.143 of the Palm Bay Code of Ordinances.
- (8) When units or measurements determining the number of off-street parking spaces result in requirement of a fractional space, any such fractional space equal to or greater than one-half (½) shall require a full off-street parking space.
- (I) (9)—All required off-street parking areas shall be provided in compliance with the landscaping provisions of this Code of Ordinances set forth in § 185.142 and Chapter 175180.
- (10) The provisions of this division (D) shall apply to all new off street parking or other vehicular use areas.
- (J) (11)—Parking lots permitted prior to adoption of the Americans with Disabilities Act (ADA) may be repainted atop the existing parking space striping and will be considered maintenance. However, parking areas that are modified from this original layout shall be re—designed meeting the ADA requirements, inclusive of parking space striping, signage, markings, and handicapped ramps (where applicable). The site must still meet the minimum amount number of parking spaces as provided for in this section.
- (c)—All parking spaces, loading spaces and drives shall meet the setbacks established for principal structures. [MOVED FROM ZONING]

- (K) All vehicular use areas, including parking and drive aisles, shall have durable, all-weather surfaces with drainage and surface water control as required by the City of Palm Bay Public Works Manual, unless waived in conformance with subsection (L) below.
- (L) If deemed appropriate, the City Manager or designee may waive the paving requirements for facilities where parking is used not more than eight hours in any seven-day period, such the overflow parking for a church or a stadium.
- (M)(8) Shared access and parking areas.(a) No side interior building and parking area setbacks are required for shared parking lots provided all of the following provisions are met: [MOVED FROM ZONING CHAPTER; NOW APPLIES TO HC, GC, IU, MU.]
 - 1. Buildings on adjacent parcels, under separate ownership, are joined by a common wall;
 - (1) 2. Parking parking areas and aisles-are joined with adjacent parcel(s) under separate ownership;
 - (2) 3.—Curb cuts and driveways on principal roadways (collector and arterial streets) are shared in common by all parcels involved and a minimum spacing of two hundred (200) feet in the Highway Commercial district, one hundred (100) feet in the General Commercial district and one hundred and fifty (150) feet in all other districts is maintained; or access is provided by an approved frontage road;
 - (3) 4.—Easements and/or written assurances of cross access and a sharing of common facilities (stormwater system, solid waste container(s), lighting, landscaping, etc.), as may be applicable, from all property owners involved must be approved prior to the issuance of a building permit.
 - (b) No interior side parking area setbacks are required provided the requirements of divisions 2. through 4. above are met.
 - (4) (c)—For adjacent developments meeting the requirements of divisions subsections (1) 2. through (3)4. above, the total number of off-street parking spaces required for uses on all parcels involved may be reduced by ten percent (10%) where the location of shared parking areas provides convenient access to all principal buildingsper §176.045 (SHARED PARKING).

§ 176.045. (E)—SHARED PARKING-

- (A) (1)—The standards and peak parking analysis contained in the most current edition of "Parking Generation" by the Institute of Transportation Engineers (ITE), is are hereby adopted and shall be referenced in any calculation of shared parking.
- (B) (2) The Director of Growth Management City Manager or designee may permit the required parking spaces for one use to be shared with required parking spaces for one or more uses upon a finding that:
 - (1) (a)—The shared parking spaces are in close proximity and readily accessible to the uses served; and
 - (2) (b)—The uses served have different peak parking demands and operating hours; and
 - (3) (c) The design of the parking area in terms of traffic circulation, vehicular and pedestrian access, stormwater management, landscaping, open space preservation, and public safety meets the requirements set forth in Chapter 185 of this code.
- (C) (3)—It shall be the responsibility of an applicant for shared parking approval to provide a description of the uses, site plan(s), trip generation report, parking study and other information necessary to permit a finding

- by the <u>Director of Growth ManagementCity Manager or designee</u> regarding the request for shared parking.
- (D) (4)—In granting approval to meet the parking requirement with shared parking, the Director of Growth Management City Manager or designee may require an agreement for shared parking be made between or among the appropriate parties in the form of a shared parking agreement with easement(s) in recordable form acceptable to the City Attorney's office. Such document shall be recorded in the public records of Brevard County, Florida.

§ 176.046. (F) PARKING COMPUTATIONS.

- (1)—Acceptable thresholds. As part of an approval of new construction, a change in use, substantial renovation, or expansion of an existing shopping center, the applicant shall calculate the required number of spaces as listed in §176.047 (NUMBER OF OFF-STREET PARKING SPACES REQUIRED) division (G) and:
- (A) (a)—The number of handicapped parking spaces shall be as required by applicable Florida Statutes.
- (B) (2)—Unlisted uses. Upon receiving a development application for a use not listed in §176.047 division (G), the Director of Growth Management City Manager or designee shall apply the parking and loading requirements for the listed use most similar in parking needs to the use for which development approval is requested.
- (C) (3)—Multiple uses. Lots containing more than one (1) use shall provide parking in an amount equal to the total of the requirements for all uses unless a shared parking arrangement is approved pursuant to \$176.045 (SHARED PARKING) division (E).
- (D) (4)—Fractions. When calculations of the number of required spaces result in fractions, any fraction up to one-half shall be disregarded and any fraction of one-half or more shall be rounded upward to the next highest full number.
- (5) Bench seating. Where seating consists of benches or pews, each twenty (20) linear inches shall be considered one seat.
- (E) (6)—Floor area. For the purpose of computing parking requirements which are based on the amount of square footage in buildings, calculations shall be on a gross floor area basis, unless otherwise indicated.
- (F) (7)—Employees. For the purpose of computing parking requirements based on the number of employees, calculations shall be for the largest number of persons working on any single shift, including owners and managers.
- (G) (b)—On-street parking. On-street parking spaces along the front property line shall be counted toward the minimum number of parking spaces required for that use on that lot, except where there are driveway curb cuts within the MUC and MU zoning districts.
- (H) *Tree Preservation*: The City Manager or designee may allow a maximum reduction of one (1) space or ten percent (10%) of the total number of parking spaces required, whichever is greater, may be permitted to save onsite specimen or historic trees.
- (I) Maximum Parking. The total number of parking spaces provided shall not exceed 1.15 times the minimum required number of spaces.

§ 176.047. (G) NUMBER OF AMOUNT OF OFF-STREET PARKING SPACES REQUIRED.

Off-street parking shall be provided based on the following minimum requirements, which are based on the Institute of Transportation Engineers (ITE) Parking Generation Manual 6th Edition manual. Any land use not shown on this Table will be required to use the latest ITE manual to determine the number of required parking spaces.

Square feet of usable space, excluding storage space from the calculations.

- (1) Animal hospital or veterinarian clinic: One (1) space for each five hundred (500) square feet of gross floor area, plus one (1) space for each doctor and/or employee.
- (2) Auto repair: One (1) space for each two hundred (200) square feet of gross floor area, plus credit of one (1) space per bay.
- (3) Care home or convalescent home: One (1) space for each patient bed.
- (4) Church or other place of worship: One (1) space for each three (3) seats in auditorium or chapel area, or one (1) space for each one hundred and twenty (120) square feet of floor area of the main assembly hall, whichever is greater, plus one (1) space per classroom.
- (5) Country club, health clubs, racquet clubs, or recreational facility: One (1) space for each one hundred and twenty (120) square feet of assembly hall/auditorium or one (1) space for each two hundred (200) square feet of gross floor area, whichever requirement may be greater, plus two (2) spaces per court and four (4) spaces per golf hole.
- (6) Day care centers: One (1) space per state required staff person plus one (1) space per ten (10) children, based on state license maximum.
- (7) Residential uses.
 - (a) Single-family dwelling unit: Minimum of two (2) parking spaces per dwelling unit.
 - (8) Minimum two (2) car enclosed garage required at the time of the issuance of the structure's certificate of occupancy.

- (8) Minimum one (1) car enclosed garage required at the time of the issuance of the structure's certificate of occupancy.
- (11) Off street parking. There shall be at least two (2) paved, off street parking spaces for each mobile home space, which shall be on the same site as the mobile home served.
- (b) Multiple family dwellings:
 - 1. Minimum of two (2) parking spaces per a two (2) or more bedroom dwelling unit;
 - 2. One and one-half (1½) parking spaces per one (1) bedroom dwelling unit; and
 - 3. One (1) space per efficiency unit that is part of a mixed one (1) and two (2) bedroom multifamily development. A development of efficiency units only shall have a minimum of one and one-half (1½) parking spaces per unit.
- (8) Elderly and handicapped housing: One half (1/2) of a parking space per dwelling unit.
 - (9) Financial institution: One (1) space for each two hundred (200) square feet of gross floor area.
- (10) Food store: One (1) space for each two hundred (200) square feet of gross floor area.
- (11) Furniture carpet or appliance store: One (1) space for each four hundred (400) square feet of retail floor space.
- (12) Hospital: One (1) space for each two (2) beds, plus one (1) space for each employee at maximum employment on a single shift.
- (13) Hotel or motel: One (1) space for each guest room or rental unit, plus one (1) space for each employee.
- (14) Manufacturing and industrial activities: One (1) space for every employee on the largest working shift, or one (1) space for each one thousand (1,000) square feet of gross floor area, whichever is greater, plus one (1) space for each company vehicle operating from the premises.
- (15) Marina: One (1) parking space for every two (2) wet boatslips and one (1) parking space for every four (4) dry boatslips.
- (16) Medical and dental offices and clinics: One (1) space for each three hundred (300) square feet of gross floor area, plus one (1) space per each employee.
- (17) Mobile home: Two (2) spaces per mobile home.
- (18) Office (administrative, business or professional): One (1) space for each three hundred (300) square feet of gross floor area.
- (19) Place of public assembly, including an assembly hall, exhibition hall, convention hall, entertainment center, community center, library or museum One (1) space for each three (3) seats, or one (1) space for each two hundred (200) square feet of gross floor area, whichever is greater.
- (20) Restaurants and drinkingestablishments: One (1) space for each three (3) seats, plus one (1) space for every employee.

- (21) Drive thru restaurants without indoor seating: one (1) space for each seventy five (75) square feet of gross floor area plus one (1) space for every employee.
- (22) Retail stores and shops, personal service establishments, household repair or equipment shops: One (1) space for each two hundred (200) square feet of gross floor area.
- (23) School, elementary (public, private or parochial): One (1) space for each classroom or office room, plus one (1) space for each one hundred and fifty (150) square feet of seating area, including aisles, in any auditorium or gymnasium or cafeteria intended to be used as an auditorium.
- (24) School, junior and senior high schools and colleges (public, private or parochial), K-8 and K-12 educational facilities: Four (4) spaces for each classroom or office room, plus one (1) space for each one hundred and fifty (150) square feet of seating area, including aisles, in any auditorium or gymnasium or cafeteria intended to be used as an auditorium.
- (25) Shopping centers.
 - (a) For commercially zoned developments with twenty five thousand (25,000) gross square feet or greater, minimum off street parking shall be provided according to the following schedule:

| Gross Floor Area | Parking/Square Feet |
|-------------------------------------|------------------------------------|
| 25,000 to 50,000 sq. ft. | 1 space per 250 sq. ft. |
| 50,000 sq. ft. and over | 1 space per 400 sq. ft. |

- (b) There shall be no other parking space reductions in shopping centers than provided above.
- (c) When tenants of a shopping center include theaters, the following also applies:
- 1. Theaters. Shopping centers that contain a theatre shall provide the amount of parking as required in (a) above, plus the number of spaces required for theaters in (26) below.
- (26) Theaters and other places of assembly having fixed seating: One (1) space for each four (4) seats, plus one (1) space for each two (2) employees.
- (27) Warehousing and wholesaling: One (1) space for each one thousand (1,000) square feet of gross floor area for buildings up to ten thousand (10,000) square feet of gross floor area. For buildings in excess of ten thousand (10,000) square feet, one (1) space shall be provided for each two thousand (2,000) square feet, plus one (1) space for each company vehicle operating from the premises.
- (28) Multi tenant warehouse buildings (typically used for contractors and other service establishments): One (1) space for each five hundred (500) square feet of gross floor area, plus one (1) space for each company vehicle operating from the premises.
- (29) Indoor Recreation: For those indoor recreation categories not specifically provided for herein, there shall be a minimum of one (1) space for each three hundred (300) square feet of gross floor area or one (1) space for each two (2) machines, whichever is greater.
- (30) Self-storage facilities:
 - (a) Internally-accessed self-storage facilities (indoor, climate-controlled):
 - 1. One (1) space for each 25 units, plus three (3) spaces for the facility's lease office.

- (b) Externally accessed facilities (drive up storage units):
- 1. At least three (3) parking spaces shall be provided adjacent to the facility's lease office. Interior traffic lanes between storage buildings shall be a minimum of thirty five (35) feet wide for two way traffic and a minimum of twenty five (25) feet for one way traffic, in order to accommodate loading and unloading, as well as through and/or emergency traffic.
- (c) Outdoor storage of vehicles (boats, R.V.'s, etc.) may occur at either of the above facility, on paved or stabilized surfaces as approved by the City Engineer. The outdoor storage area must be screened from any public rights-of-way or adjacent residentially zoned property by an 8' tall completely opaque wood or PVC fence, or masonry wall that has a finished appearance on both sides of the wall. [MOVED TO CHAPTER 174]

§ 176.048. (H) OFF-SITESATELLITE PARKING-AND STORAGE LOTS.

All <u>off-sitesatellite</u> parking <u>and storage lot</u> applications shall be considered individually by the <u>Director of Growth Management-City Manager or designee</u> and shall be subject to the requirements of this section and the City Land Development Code for site plan approval.

- (A) (1) Conformance standards. All off sitesatellite parking and storage lots must be located no further than five hundred feet (500') from the outermost boundaries to the parent parcel that must contain a minimum of one (1) principal structure. No satellite off site parking area shall be permitted where the subject property is separated from the parent property by an arterial or collector roadway.
- (B) (2)—The applicant must submit a survey showing any exceptional specimen trees on site and submit a parking plan with details for surface material, traffic and safety devices, along with storm water treatment, for administrative site plan review.
- (C) (3)—Any exceptional specimen trees to be preserved in-place shall be effectively fenced or separated so that no damage shall occur to these trees while the site is being used for parking of vehicles or storage of materials on site.
- (4) Storage lots shall be screened on all sides by a minimum 6' tall completely opaque wood or PVC fence, or a masonry wall with a finished exterior surface.
- (5) Storage lots shall be constructed of paved or stabilized surfaces as approved by the City Engineer, or designee, and the driveway shall be paved from the property line to the edge of pavement of the abutting roadway.
- (D) (6)—Parking lots shall meet the parking development standards of this section and meet the landscape requirements of Chapter 175 § 185.142.
- (E) (7)—The proposed <u>satellite</u> off site parking or storage lot must post the identity of the business(es) that has control of the site, the hours of operation for the lot, as well as emergency contact information that is clearly visible from the street. This information shall remain posted for as long as the site is in use.
- (F) (8)—Any lot or parcel of land leased for off-sitesatellite parking or storage shall cease use at the same time the lease agreement is terminated.
- (G) (9)—A unity of title shall be required for <u>satellite</u> off-site parking lots where they are utilized to meet the minimum parking requirements of the parent parcel.

§ 176.049. (I) PARKING RATE ADJUSTMENT.

- (A) (1)—Any deviation in parking from the acceptable thresholds set forth in this section, shall require approval by the Director of Growth Management City Manager or designee. This approval shall rely on written request for a parking rate adjustment filed with the Director of Growth Management City Manager or designee. At a minimum the application shall include:
 - (1) (a)—All data, materials, and information required for site plan approval of the subject site,
 - (2) (b)—A map of the surrounding area reflecting existing zoning,
 - (3) (c)—A parking study that identifies the relevant facts upon which the request is based, and describes in detail the basis for the proposed rate adjustment, and
 - (4) (d) Documents demonstrating that the applicant controls and will continue to control the property(ies) affected by the application.
- (B) (2)—The parking study required in section may include, but is not limited to:
 - (1) (a)—Local parking studies of the same land use,
 - (2) (b)—Shared parking by mixed uses,
 - (3) (c) On-site trip capture from secondary trip opportunities, and/or
 - (4) (d)—Utilization of off-site parking, employer-based or other activities and/or provisions that will result in alternative travel modes that are not dependent on on-site parking,
- (C) (3)—In granting a parking rate adjustment, the Director of Growth Management City Manager or designee shall determine that the proposed rate adjustment would not result in undesirable overflow parking, nor otherwise adversely impact the character and integrity of the surrounding area.

§ 176.050. (J)—PAVING STANDARDS-

All parking spaces, access drives, and loading zones shall be paved in accordance with the design standards set forth in the current edition of the City of Palm Bay Public Works Manual and the Land Development Code.

§ 176.051. (K)—VEHICULAR AND PEDESTRIAN INTERCONNECTIONS.

For commercial development, vehicular and pedestrian interconnections are <u>encouraged</u> required unless there are circumstances that prevent such connections to occur as determined by the City Manager or designee.

§ 176.052. § 185.132 CONVERSION OF GARAGE(S) TO LIVING AREA.

Existing garage(s) may be converted to living area provided the following criteria are met:

- (A) (A)—The garage(s) are attached to the principal structure.
- (B) (B)—The living area created must be directly accessible from the living area in the principal home.
- (C) Required parking spaces are provided on the residential lot in lieu of the garage.

(D) (C)—All building codes, fire codes and other provisions of the code of ordinances must be met.

PART 5. § 185.141 OFF-STREET LOADING AND SERVICE FACILITIES.

§ 176.060. PURPOSE

The purpose of this part of the Land Development Code is to provide standards for loading and service facilities.

§ 176.061. OFF-STREET LOADING STANDARDS

Off-street loading and service facilities shall be provided in accordance with the following standards and specifications:

- (A) (A) On the same lot with every structure or use, hereinafter erected or created there shall be provided and maintained adequate space for loading and unloading of materials, goods or things and for delivery and shipping so that vehicles for the service may use this space without encroaching on or interfering with the public use of sidewalks, streets, parking areas, aisles, driveways and alleys by pedestrians and vehicles.
- (B) (B)—Where any structure is enlarged or any use is extended so that the size of the resultant occupancy comes within the scope of this section, the full amount of off-street loading space shall be supplied and maintained for the structure or use in its enlarged or extended size. Where the use of a structure or land or any part thereof is changed to a use requiring off-street loading space under this section, the full amount of off-street loading space shall be supplied and maintained to comply with this section.
- (C) (C)—For the purposes of this section, an off-street leading loading space shall be an area at the grade level at least fourteen (14) feet wide, forty-five (45) feet long, and having fourteen (14) feet of vertical clearance. Each off-street loading space shall be arranged for convenient and safe ingress and egress by motor truck and/or trailer combinations. No off-street loading space or necessary access way thereto shall be designated or utilized as off-street parking space. Each off-street loading space shall be accessible from the interior of any building it is intended to serve.
- (D) (D)—Off-street loading spaces shall be provided and maintained in accordance with the following schedule.÷ For any use not specifically mentioned in this section, the requirements for off-street loading for

a use which is mentioned and to which the unmentioned use is similar shall apply. Where there is any question as to the off-street loading needs of any other use, the number shall be determined and fixed by the City Manager or designee.

| Use | <u>Size</u> | Number of loading spaces |
|-------------------------------------|---------------------------------|--|
| <u>Commercial – Retail</u> | 5,000 to 25,000 Sq. Ft. | 1 space |
| <u>Commercial - Service</u> | Over 25,0000 and 50,000 Sq. Ft. | 2 spaces plus |
| | Over 50,000 Sq. Ft. | 2 spaces plus 1 for each additional 50,000 |
| | | square feet, or fractional part thereof |
| Assembly | 10,000 to 50,000 Sq. Ft. | 1 space |
| Lodging | Over 50,000 Sq. Ft. | 1 space plus 1 for each additional 50,000 |
| <u>Institutional</u> | | square feet, or fractional part thereof |
| Light manufacturing, warehouse, | 10,000 to 50,000 Sq. Ft. | 1 space |
| research and development, | Over 50,000 Sq. Ft. | 1 space plus 1 for each additional 50,000 |
| assembly, or similar industrial use | | square feet, or fractional part thereof |

- (1) For buildings or structures containing retail, food store, restaurant, laundry, dry cleaning or similar retail or service uses which have an aggregate gross floor area of:
 - (a) Over five thousand (5,000) square feet, but not over twenty five thousand (25,000) square feet
 one (1) space;
 - (b) Over twenty-five thousand (25,000) square feet, but not over fifty thousand (50,000) square feet two (2) spaces;
 - (c) One (1) additional loading space shall be provided for each additional fifty thousand (50,000) square feet, or fractional part thereof, for buildings larger than fifty thousand (50,000) square feet.
- (2) For each auditorium, exhibition hall, museum, hotel, or motel, office building, or similar use, which has an aggregate gross floor area of over ten thousand (10,000) square feet, but not over fifty thousand (50,000) square feet, one (1) space. One (1) additional loading space shall be provided for each additional fifty thousand (50,000) square feet, or fractional part thereof, for buildings larger than fifty thousand (50,000) square feet.
- (3) For any light manufacturing, ware house, research and development, assembly or similar industrial use which has aggregate gross floor area of over ten thousand (10,000) square feet, but not over fifty thousand (50,000) square feet, one (1) space. One (1) additional loading space shall be provided for each additional fifty thousand (50,000) square feet, or fractional part thereof, for buildings larger than fifty thousand (50,000) square feet.
- (4) For any use not specifically mentioned in this section, the requirements for off-street loading for a use which is mentioned and to which the unmentioned use is similar shall apply. Where there is any question as to the off-street loading needs of any other use, the number shall be determined and fixed by the Growth Management Director, or designee.
- (E) (E)—Off-street loading facilities <u>used</u> to meet the needs of one (1) use shall not be considered as meeting the off-street loading needs of any other use.

- (F) (F) No area supplied to meet the required off-street parking areas for a use shall be utilized for or be deemed to meet the requirements of this section for off-street loading facilities.
- (G) (G)—Nothing in this section shall prevent the collective, joint, or combined provision of off-street loading facilities for two (2) or more buildings or uses; provided, that such off-street loading facilities are equal in size and capacity to the combined requirements of the several buildings or uses and are so located and arranged as to be usable thereby.
- (H) (H)—Plans for buildings or uses requiring off-street loading facilities under the provisions of this section shall clearly indicate the location, dimensions, clearance, and access of such required off-street loading facilities.

('74 Code, § 25-192) (Ord. 89-08, passed 4-27-89; Am. Ord. 2016-17, passed 4-21-16)
